Accelerated Program Information

The Accelerated M.S. in Accounting (<https://grad.business.uconn.edu/academics/accelerated-undergraduate-masters/>) is designed for UConn undergraduates who want to complete their B.S./M.S. in under 5 years. Up to 12 credits of the required graduate coursework taken while the student is an undergraduate may be used toward both the B.S. and M.S. Plans of Study. Undergraduate students enrolled in Accounting must apply for the accelerated track at the end of their sophomore year year and then apply to the M.S. program during their senior year.
