

NEUROBIOLOGY OF LANGUAGE (GRADUATE CERTIFICATE)

Faculty affiliated with the Cognitive Science program and the graduate training program in Neurobiology of Language offer a Graduate Certificate in Neurobiology of Language. The required four courses, listed below, provide background in neurodevelopment and linguistic structure and processing, followed by courses that integrate cognitive and biological approaches to understanding typical and atypical language throughout the lifespan, totaling a minimum of 12 credits.

Required Courses

Course	Title	Credits
COGS 5120	Structure, Acquisition and Processing of Language	3
COGS 5130	Neurodevelopment and Plasticity	3
COGS 5140	Neurobiology of Language: Typical and Atypical Cognition and Language Development	3
COGS 5150	Cognitive Neuroscience of Language Across the Lifespan	3
Total Credits		12
