

PHYSIOLOGY AND NEUROBIOLOGY MINOR

The PNB minor is suitable for students wishing to further their understanding of body and brain functions at the molecular, cellular and systemic level. Course offerings span comparative and model system physiology, nervous system function and development, endocrinology, cardiorespiratory physiology, and associated diseases.

Requirements

Students pursuing a minor in Physiology and Neurobiology must complete 15 in PNB at the 2000-level or higher level, including:

Course	Title	Credits
Select one of the following:		
PNB 2264 & PNB 2265	Human Physiology and Anatomy and Human Physiology and Anatomy	
PNB 2774 & PNB 2775 & PNB 2776	Enhanced Human Physiology and Anatomy I and Enhanced Human Physiology and Anatomy II and Enhanced Human Physiology and Anatomy Laboratory	

No more than three credits of PNB 3296 Undergraduate Research in Physiology and Neurobiology, PNB 3299 Independent Study or PNB 4296 Honors Undergraduate Research In Physiology and Neurobiology may be applied toward the 15-credit requirement.

The minor is offered by the Physiology and Neurobiology Department.
